

## **William Wirt Design and Construction Update Meeting**

**Q&A 12/8/2021**

### **Will the name remain the same?**

Currently there are no plans to change the name of the school.

### **How frequently will updates be given?**

The Capital Programs team is developing a quarterly community newsletter to be reviewed and distributed to the community through the principal and PTA president. Town halls will be held twice per year or as-needed. As construction advances, the CIP will work to set up time and space for community site observations.

### **At what point will the new entrance at Tuckerman and 63rd Ave be built?**

The connection to 63rd will happen at the completion of all site work, after demolition and cleanup of the site.

### **What is the proposed delivery date?**

We are projecting a January 2024 (after winter break) opening.

### **Is there any place to sign up for the newsletter updates? I live two streets away from the school and would love to stay on top of what is going on.**

Please send contact info to: [capital.programs@pgcps.org](mailto:capital.programs@pgcps.org) and title your email "William Wirt distribution request."

### **I am president of the Riverdale Heights/Riverdale Hills/Crestwood Community Association. As long as Ms. Glaros is updated, I'm sure we will be kept informed.**

Yes. But Ms. Glaros is encouraging everyone to sign up to receive information. All meeting participants will automatically receive updates through the email addresses they registered with (w/ opt-out options).
